Opening	October 14
Time	08h00
Description	Depart from Geneva and visit the caves of Vallorbe: carved out by the Orbe river, you will find stalactites and stalagmites. The geological richness, highlighted by the lighting, creates a magical atmosphere. We imagine the underground galleries as a silent place. The Cathedral, a hall over 30 m high, is the natural setting for a sound and light show. The visit ends with the Treasure of the Fairies: a magnificent collection of 250 minerals from all over the world. In the afternoon, spend some free time in Yverdon. For 1500 years, Yverdon-les-Bains has combined with the art of living. Known for these sulphurous springs, it is also a business city. Its Neolithic standing stones, its Roman castrum, its medieval castle, its 18th century buildings bear witness to a long history. Spend time strolling through its pedestrian streets, full of charm with its colorful facades.
